

Our Signs Make You Shine!

Lark Post in Ground Installation:

1. Dig 8-10" wide hole x 30" deep.
2. Put 6" gravel in the bottom.
3. Attach post to the panel and insert post into the hole.
(See instructions on back.)
4. The center of the panel should be 42" above ground.
5. Fill the hole with concrete.
6. Make sure the post is straight up and down.
7. Hold in place till the concrete is set.
8. Enjoy your new sign and your visitor's praise!

Lark Post to Panel Installation:

1. Lay panel face down on flat protective surface. Take your post and align the holes in the mounting plate with the screw threads in the panel.
2. Stack the metal washer onto the rubber washer. Then put the screw through the washer holes with the screw head next to the metal washer.
3. Put the washer-screw assembly through the hole on the mounting plate. Hand start the screw into the threads on the back of the panel.
4. Tighten the screw with a T-30 wrench till snug.
DO NOT OVER TIGHTEN!
